1. Brandenburg/Industriehafen Airfield - 27 October to 7 November 1950
A Dumbo radar set, formerly situated in the southwest corner of the airfield, west-northwest of the village of Neuendorf, was removed on 28 October. A radio unit, previously observed, was still in position in the southeast corner near the Arado hangar.
2. Schoermwalde Airfield - 14, 28, and 29 October
The masts of the Adcock direction finding station situated on the western edge of the airfield have been removed. The Rus-2 set, previously observed, is still in position. The second truck in this unit has been replaced by a trailer. On 28 and 29 October seven small trucks, six of which appeared to be radio trucks, were parked to the east of the Rus-2. At the entrance to the airfield were two similar trucks. On 29 October two trailers were observed near the Rus-2. They were gone by evening.
3. Warnemuende - October to November 1950
Several ships' captains have reported that there are no indications of the existence of radar installations along the coast adjacent to the entrance to Warnemuende and Rostock.
4. Wittstock Airfield - 3 to 22 November
Three Dumbo sets were observed at the field during the period from 3 to 22 November. A parabolic type radar array, previously observed, has not been seen since it was dismantled.
